

THE WATER CYCLE SONG

(Sing to the tune of Frere Jacques)

By Chris Geiselhart

E-vap-o-ration, e-vap-o-ration,
What are you, what are you?
I-I once was water,
Sun's heat chang'd me to vapor,
Now I'm back in-the-clouds, now I'm back-in-the-clouds.

Condensation, condensation,
What are you, what are you?
Va-por changed back-to-liquid,
Va-por changed back-to-liquid,
Splash, splish, splash; Splash, splish, splash.

Transpiration, transpiration,
What are you, what are you?
Plants lose water from their surfaces
As vapor back into the atmosphere.
Blow wind blow, blow wind blow.

Precipitation, precipitation,
What are you, what are you?
Heavy water va-por, falling to the ear-th
Rain, sleet, snow, drizzle, hail below.
Rain, sleet, snow, drizzle, hail below.
